5. Further remarks... For additional online formats, I would like...

5.1)

- Not the presenters fault, but the learning goals of the workshop could have been achieved in one afternoon and not two full days.
- Tobias has a great personality. He has a full grasp of his knowledge. I highly recommend this course and I would love to take more courses from him.

6. Which topics in the scope of the qualification program do you consider to be important/ interesting?

6.1)

- Dealing with hardships, e.g. in terms of supervision.
- For me, QZP guidelines for candidates and supervisors were the most important topics. But the course was well organized and every topic was important and relevant to the course.
- I would like a course on copyright and licensing of materials that are created during a Ph.D., e.g.:

Can I opensource my code without asking the university? Which license should / can I choose? MIT? GPL? What material can I use under what conditions after my Ph.D., e.g. when starting / joining a company?
